

Preparing your shipments in 2 steps:

We provide a specific analysis request form (Ref. B34-INTGB)¹ and a model confirmation/consent form (Ref. D43-INTGB)² that we recommend you use. These forms include all of the information required for your test request to be processed under optimal conditions.

1 Checklist – Index case

- ☐ Patient sample (5 mL EDTA whole blood)
- ☐ Medical prescription
- ☐ Certificate of consultation signed by the referring physician
- ☐ Consent signed by the patient or their legal representatives
- ☐ Clinical information (including family tree)
- ☐ Results of genetic tests already performed
- ☐ Dossier and sample to be included in transport bag
- ☐ Transport bag to be placed within a dedicated transportation envelope (Ref. K34)³

Included in
the B34-INTGB
request form¹

2 Checklist – per blood relative

☐ **OPTION A: Shipment of blood relative sample (s) with the index case sample**

- ☐ Sample (5 mL EDTA whole blood)
- ☐ Medical prescription
- ☐ Copy of “Exome” request form (Ref. B34-INTGB)¹ for the index case with the section “Information concerning relatives” duly filled in
- ☐ Medical file
- ☐ Signed certificate of consultation (Ref. D43-INTGB)²
- ☐ Signed consent (Ref. D43-INTGB)²
- ☐ Dossier(s) and sample(s) to be placed into a transport bag (one bag/blood relative)
- ☐ Transport bag(s) to be placed inside the dedicated transportation envelope (Ref. K34-INTGB)³ alongside the index case bag

OR

☐ **OPTION B: Shipment of blood relative sample(s) after that of the index case**

- ☐ Sample (5 mL EDTA whole blood)
- ☐ Medical prescription
- ☐ Copy of “Exome” request form (Ref. B34-INTGB)¹ for the index case with the section “Information concerning relatives” duly filled in
- ☐ Medical file
- ☐ Signed certificate of consultation (Ref. D43-INTGB)²
- ☐ Signed consent (Ref. D43-INTGB)²
- ☐ Dossier(s) and sample(s) to be placed into a transport bag (one bag/blood relative)
- ☐ Transport bag(s) to be placed in a special shipping envelope (Ref. K34-INTGB)³
